William C Tang Ph.D.

Associate Dean for Research,
Henry Samueli School of Engineering
Professor, Biomedical Engineering Dept.
Professor, Electrical Engineering &
Computer Science
University of California, Irvine (UCI)

Keynote Address:
***The Future of Micro-
electromechanical
Systems***

William C. Tang received his BS, MS, and Ph.D. in EECS from the University of California at Berkeley in 1980, 1982, and 1990, respectively. Since his graduation, he has continued his contribution to the Micro-electromechanical Systems (MEMS) field in the automotive industry at Ford Research Laboratory and Ford Microelectronics, Inc., and later in MEMS for space exploration at the Jet Propulsion Laboratory. In July 1999, he served as the MEMS Program Manager at the Defense Advanced Research Projects Agency (DARPA). Since July 2002, he has been on faculty with the BME Department at the University of California, Irvine. On March 2008, he was appointed the first Associate Dean for Research for the Henry Samueli School of Engineering. His current research interests are in micro- and nano-scale technologies, navigation inertial sensors, wireless medical implants and micro biomechanics. Dr. Tang is a Senior Member of the Institute of Electrical and Electronics Engineers (IEEE), a Fellow and Chartered Physicist with the Institute of Physics (IOP), and a Fellow of the American Institute for Medical and Biological Engineering (AIMBE).

OCEC will host one complimentary dinner for an officer/representative from your company, professional society or academic institution. RSVP by 9/14/2011 by sending an email to Phil Ridout, OCEC Treasurer, at pridout@socal.rr.com with your name, title, affiliation and phone.
